

WITH INTERNAL
SPACER

WITH HANDLE

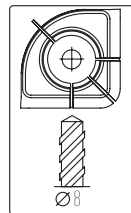

WITH 2
VENTILATION SLIDES

4 LOCKS ON THE
LID

DESCRIPTION:

1. Translucent lid to protect the seeds and seedlings for optimal growth of the plants
2. Ventilation holes in the lid prevent the plants from overheating
3. 4 locks on the lid to secure it in the wind
4. Use of the legs to facilitate the work when planting
5. Multifunctionality: can also be used as a plant box without a lid and with caps
6. Also suitable for indoor use.

Optionally, holes can be drilled in the plant box
